In the year 2035, creatures called "Monster" have overrun the planet Earth. The number of people killed by these "Monster" is unknown, but believed to be in the millions. A corporation called Global Defense Force (G.D.F) has taken charge of the effort of hunting and eradicating the monsters. However, the G.D.F. consists of the best human fighter pilots with the skills of "Monster War", and a team of self-sacrificing robot manipulators, called Rescue Team. Little did anyone know that one day this "Monster War" would start up again, and half a century later, the forces of good would prove to be completely overpowered. Game Overview: In the year 2035, mankind is on the brink of extinction. The Earth has become home to packs of wild monsters that prey on humans. In the hopes of finding a way to

end the slaughter, a new breed of aliens - known as Gloomcast - comes to Earth, wielding incredible power and granting enormous gifts in exchange for surrender. The government, desperate to placate the aliens, sends in the G.D.F. - a special defense force made up of the best human fighter pilots and a team of self-sacrificing robot manipulators, known as the Rescue Team. Little did anyone know that the hunting and eradication of the monsters would start up again, and half a century later, the forces of good would prove to be completely overpowered. "Decent playing time. Challenging to beat each level in gold time. Interesting setting. Nice House-restoring mini-game."

## What's new in Little Robot Stories:

**Viking: Sigurd's Adventure** is a turn-based video game developed by Raven Software and published by Activision. The game is based on the viking mythology, and follows the story of Sigurd as he travels to the land of the Fyrisviti, and journeys to defeat the dragon Fafnir. Its gameplay is a combination of role-playing video games, and real-time strategy. The game was released worldwide on 26 June 2005 and is available for Microsoft Windows, PlayStation 2, Xbox, and GameCube. The game features voice-acting, photo-realistic graphics, and gameplay similar to Baldur's Gate II. The gameplay in Viking: Sigurd's Adventure is divided between turn-based battling in real-time, and navigating through the game's environments. The player may choose to use the environment, or may choose to engage in battles. They can choose from Sigurd and his companion, Sigurd's Mother, and with the magic blades, Sigurd's father, Freed; or with enemies. Battles in Viking: Sigurd's Adventure are turn-based and utilize a four-directional combat mechanic. The four directions refer to attacks that can be executed on the characters during the two stages of the turn: the initiating move and the fighting move. While the gameplay involves engaging enemies using both real-time and turn-based battles, the game structure is unique. Combat moves are taken as an initiative turn, which is similar to a traditional turn-based game. Combat is taken in four steps, and each step is considered an initiative turn: the player can use their attacks in that turn, the opponent can use their attacks and moves, and the player can use their moves to recover health. This system, which was also used for Baldur's Gate II, allows a player to allocate their attacks to situations where they can initiate combat with greater efficiency. Viking: Sigurd's Adventure is a "class-based" game. Each class has a battle option: the barbarian is able to use physical attacks and unarmed strikes, the berserker is able to perform physical

---

attacks and behead an enemy, the magician is able to perform fireball spells and sing songs of battle, and the ranger focuses on close combat with a sword and shield. The ranger class is able to fight with one-handed weapons only. Using the game's inventory system, equipped items may be chosen by the player during turn-based battles. These choices will replace

**Customer Reviews** One of the best murder mystery board games we've ever played by stannarcw I usually don't get into board games but I thought this title would be fun to try. It definitely is! I bought this for my Dad who is always playing board games with us on the weekends. This is a great board game for the whole family to enjoy. The story is fun to follow as the player tries to figure out who the real killer is. This is a great murder mystery that can be played in only one sitting. Great for family parties and great for those who like to play board games and mysteries. One of my favorite apps by kontos Fantastic game. Gameplay and mechanics are tight and well thought out. A dark, creepy atmosphere is established in the

**beginning with the setting of the mansion. You get a grand feeling of mystery and suspense and don't know who the bad guy is until the end, which makes the whole experience quite fun and keeps you guessing right until the end. Fantastic game! by ninjaboogie I'm a fan of the board games line from morel, so I was really pleased that they put out something with both morel and freeverse. The game is really well-designed and the mystery is really engaging. As a fan of board games, I actually had a really good time playing and even won! Good value for the price, thanks morel! HIGHLY RECOMMENDED by yusufkn This game is fantastic. It is a ton of fun to play. I love it. Must Buy!! by DikaMukasho Fun & Interesting! Really enjoyed playing this one.**
